

BRONZE 'Y' TYPE STRAINERS

PN32 - SERIES B THREADED ENDS

DYNAFLUID DY3 STRAINERS

Bronze bodied 'Y' type strainer suitable for water, steam and oil. The strainer offers cost effective protection to mechanical equipment such as pumps, meters, traps and valves from the potential hazards of pipeline debris. Installation of a strainer before any mechanical equipment will ensure trouble-free service and avoid costly shut-downs, repairs or replacements so often caused by the introduction of foreign matter in pipe lines.

SIZE RANGE

mm	15	20	25	40	50	65	80
ins	1/2	3/4	1	1 1/2	2	2 1/2	3

PIPE CONNECTIONS

Female Inlet x Female Outlet.

Standard strainers are threaded BS21:1985 Taper, NPT available on request.

PRESSURE/TEMPERATURE RATING

PN32 (Cold Non-shock 32 bar)
Steam 13.8 bar at 191°C

TEST PRESSURE HYDRAULIC

Shell 48 bar

MATERIAL SPECIFICATION

Item	Component	Material
1	Body	Cu Alloy BS EN 1982 CC491K
2	Cap	Cu Alloy BS EN 1982 CC491K
3	Screen	Stainless Steel BS 304
4	'O' Ring	Viton

STRAINER SCREEN

½" to 2" fitted as standard with 20 mesh (0.9mm aperture) screen, 50% free flow area.

2½ - 3" fitted as standard with 12 mesh (1.6mm aperture) screen.

Wide range of alternative meshes/apertures available on request.

REPAIRS AND MAINTENANCE

All strainers should be regularly checked for damage and maintained according to the installation and maintenance instructions. Full range of spare parts including replacement screens available on request.

DIMENSIONS & WEIGHTS

Size	15	20	25	32	40	50	65	80
A	67	74	92	106	114	147	226	226
B	39	46	55	55	76	99	150	150
C	61	73	88	102	119	153	230	230
Wt Kg	0.3	0.4	0.6	1.2	1.4	2	9.5	9.5

EXTRA FITTINGS AVAILABLE

Pressure tapping differential points on ½" to 2".

Magnetic plugs on all sizes.

50micron/300 mesh for gas applications.

GUARANTEE

All strainers are tested prior to despatch and are guaranteed for 12 months against faulty materials and workmanship.

Whatever your hot water requirements, we've the innovative answer. Steam and water mixers plus a full washdown range including waterguns and lances, self-retracting hoses, hot-and-cold water mixing valves and couplings. There are stainless steel options for the ultimate in hygiene. Everything for both high and low pressure applications.

The core of our range is the Dynafluid 2000 steam and water mixing valve. This product has built a solid international reputation for leadership over a 40-year history and a programme of continued improvement will ensure that this leadership is maintained.

From a single component to a full washdown system - talk to Dynafluid.
